

## CAROLINE ROBERTS

Caroline has been on her healing path for the past 28 years. Her journey has involved studying Aromatherapy, Shiatsu, Crystal Healing, Kinesiology, Supercoherence, Pranic Healing and Rose Alchemy. She weaves threads of all of these modalities into her healing work with women.

She has also been involved in baby massage for the past 20 years promoting nurturing touch and communication and has trained over a thousand instructors for the International Association of Infant Massage. Her current area of interest is women's circle work and she has both experienced and witnessed how, when women gather within a dedicated time and space whilst respecting the principles of the circle, deep transformation and healing can occur.
